**The “Safe 4 the Right Reasons” message is the foundation to build a positive safety culture.**

**Safe 4 the Right Reasons:** For over a decade this simple yet sophisticated safety message has helped to eliminate accidents and injuries by getting employees to practice safe behaviors because they WANT to, not because they HAVE to. This presentation delivers what safety professionals and companies have been trying to instill in their employees forever - valuing their own safety and willing watch out for each other. **The Safe 4 Program** delivers **what** to do and **how** to achieve your safety goals.

**“The Safe 4 Program has increased employee morale and engagement and our recordable incidents went to ZERO!”**

# CHOOSING YOUR FIRE HELMET

## Materials

Fiberglass is best for chemical exposure. Thermoplastic helmets provide greater impact resistance and a longer lifespan in heat, yet are more vulnerable to chemical solvents.

## Balance

Weight itself does not vary much between manufacturers. A lightweight feel comes from a properly designed and balanced helmet.

### PX ReTrak® Fire Helmet with Integrated Visor

- Thermoplastic outer shell offers the ultimate impact and penetration resistance
- M-PACT Plus Molded Inner Liner System protects against heat rise
- 4" Optically correct faceshield reduces distortion
- Nomex® ear cover
- Sure-Lock® ratchet headband with comfort brow pad
- Scotchlite® reflective markings retains reflectivity to 500° F (260° C)
- Stainless steel D-ring for hanging helmet
- ReTrak® Integrated Visor allows one handed operation while accommodating eyewear
- Balanced 6-point nylon crown straps and crown pad

## DOES MY BOOT FIT?

Your boot size may not match your shoe size. Go for something snug, not tight, and keep in mind that most boots need to be broken in. This process should take a couple weeks, provided the boots are worn for a few hours everyday. All three sides of the boot should touch your heel. Give yourself enough room to wiggle your toes, this will help prevent blisters and calluses.
